Watch, Wait, and Wonder Intervention Network Meeting

In October 2014 Incredible Families and the New Zealand Association of Child and Adolescent Psychotherapists (NZACAP) had a successful day focused on 'What Happens when Infants and Children Lead the Way? Watch, Wait and Wonder - Theory, Practice, Training and Research'. Two cases were presented and there was a positive response to having extended time to consider case material.

This Network meeting will similarly allow us space and time to discuss the intervention. The cases will scaffold discussion around specific components of the work and further developments with the intervention.

In October 2009 Incredible Families ran the first Introductory Training in this intervention in Australasia. Planning that Training began in 2008 and we hope to celebrate with Elisabeth Muir our achievements over 10 years of working together.

It is timely to begin this new initiative supporting our relationships with each other and our work with this intervention.

DAY ONE

SUPPORTING THE INFANT

CASE: Dr Adaobi Udechuku,
Perinatal Psychiatrist, Raphael
Centre Outreach Services, St John
of God, Berwick Hospital, Victoria

Discussion:

Setting up the space
Respecting and
understanding the infant's
communications
Containing the infant's
relationship with their parent

DAY TWO

SUPPORTING THE PARENT

CASE: Marion Doherty, Coordinator
Koanga Tupu IMH Service, Kari
Centre, Auckland DHB

Discussion

Timing
Building observation
Supporting a parent to wait
Decision making around
individual therapy for a parent
