

# **CRITICAL REVIEW REPORT, JULY 2021**

## **Purpose**

For information on progress made to date.

## **Project Promotion of NZAP and Psychotherapy**

Rick Williment, Chair of the Project Promotion of NZAP and Psychotherapy, has presented his final report with recommendations to Council. Rick has generously agreed to join Council on their strategic planning day in which many of the report's recommendations will be considered in the delineating of the future of our Association.

I would like to request for Council to formally express their gratitude for all the work that Rick has devoted to this thorough report.

## **Project Partnership/TTBAC**

John O'Connor, Chair of the Project Partnership/TTBAC Review, is progressing well in writing the review team's TTBAC review report. He will finalise the report with his review committee over the next few weeks, and will provide it to Council by Tuesday 6 July.

## **Future review projects**

As expressed in my report to Council in April, there are now four Review Reports and Recommendations from each respective Review Team that need to be processed and integrated into our plans for the future of our Association. To make the best use and to honour the work of our colleagues, Council decided to pause the next reviews until the current recommendations have been considered in full.
